CARTER COUNTY FAIR
EKALAKA, MONTANA
Second Full Weekend in August

Board of County Commissioners
Rod Tauck
Dan Dinstel
Pam Castleberry

Carter County Fair Board

Seth Whitney	Chairman
Cam LaBree	Vice Chairman
Clay Smith	Member
Robin Kaweck	Member
Rachel DeFord	Member
Tessa Tauck	Member
Joni Hendricks	Secretary
Jimmie Sparks	Co Secretary

Jesi Pierson County Treasurer, Member ex-officio

Agriculture is the most important industry in Carter County. Because it is the lifeblood of the county, your Fair Board asks the cooperation of every rancher and businessman to help promote the Carter County Fair - the show window of this important industry. Thank you very much for all your participation in this year's fair.

*****ALL DOGS ON FAIRGROUNDS NEED TO BE LEASHED.*****

Carter County Fair Board

unless prior arrangements have been made

General Rules and Regulations

- 1 The Carter County Fair Board reserves the final and absolute right to interpret these rules and regulations and settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of, connected with, or incident to the fair.
- 2 The Board reserves the right to formulate & announce new rules to meet emergencies that may arise during the fair.
- 3 The Fair Management reserves the right to exclude from the Event Center grounds any person or persons whom it may deem undesirable or who shall violate any of the rules laid down by the management or who shall in any way become offensive.
- 4 The Board reserves the right to direct and regulate the parking of all vehicles or conveyances within the Event Center grounds and to direct where they shall be driven therein. It may prohibit the running of automobiles in any section of the grounds whenever, in its opinion, common sense or safety demands it.
- 5 No claim for injury to any person or property shall ever be assessed or suit instituted and maintained against the Carter County Fair, its officials, or their agents, or on behalf of any person, firm, corporation, or their agents, representatives, servants, or employees having licenses or privilege to exhibit on Fairgrounds or occupying space.
- 6 Every animal and article on the grounds shall be under the control of the Fair Board, but while every precaution will be taken for the safe keeping of the same, neither the Fair Board, its officers or agents will be responsible in any case of loss, damage, or accident which may occur.
- 7 Soliciting by any person or organization in any of the fair buildings is prohibited.
- 8 Anyone wishing to sell items on the Event Center grounds must obtain permission from the Fair Board. No non-contract vendors are allowed on the rodeo grounds.
- 9 Soliciting subscriptions. Resolution adopted by the Rocky Mountain Association of Fairs, January 28, 1986. All fairs holding membership in the RMAF voted unanimously to exclude all sheet writers from every fair in the State of Montana.
10. All dogs on fairgrounds need to be leashed.

Rules for Exhibitors

- 1 Only one entry in each Class per exhibitor. (Ex. Please don't enter one exhibit in Adult and then in the same Department enter another exhibit in the 65 & over Division)
- 2 Application for entry of all exhibits should be made on the form provided with this premium list. Additional forms may be obtained from the Secretary of the Carter County Fair.
- 3 Completed entry forms need to be sent to the Fair Secretary No later than 6:00 p.m. on Monday before the fair. Entry forms may be mailed to Box 164, Ekalaka, MT 59324. Phone 406-775-6384 or send to cartercountyfairmt@gmail.com. Exhibitors may pick up tags at the Fair Office.
- 4 Every entry must be made in the name of the bona fide owner. Indoor exhibits must be in place by 9:30 a.m. Thursday. (See Outdoor categories for appropriate time of placement.)
- 5 ALL EXHIBITS MUST REMAIN UNTIL 4:00 p.m. SUNDAY OR FORFEIT PREMIUMS FOR THAT EXHIBIT. With the exception of market sale animals, which is 3:00 p.m., unless some unforeseen situation arises and permission is received from management.
- 6 Exhibits not removed or arrangements made for their removal within 10 days of the close of the Fair will become the property of the Fair.
- 7 Note instructions for each department for any special rules pertaining to that department.
- 8 All 14 and Under Divisions will be judged on the Danish System. The age of the exhibitor must be on the entry tag, as this will help the judges to award the ribbon for neatness, ability, and suitability for their age.
- 9 In the case of livestock, exhibitors must furnish their own feed, including hay. Exhibitors must feed, water, and clean stalls where stock is placed. Bedding will be furnished. All stalls must be cleaned daily or as needed, and before leaving.

10 Open class livestock exhibitors must wear clothing appropriate for showing livestock. All divisions require neat clothing: pants and appropriate shirts. Western hats (helmets) and boots are required in the horse divisions. Heavy footwear is required in all other large livestock divisions. Shirts with writing, baseball caps, tennis shoes, and sandals are not allowed.

11 Superintendents or judges may re-classify wrongly classified articles prior to judging. If the judge wishes to change classes on the Market Animal exhibits, the Fair Board asks that the reason be given to the exhibitor for educational purposes.

12 Judges are instructed to award in each instance only prizes of such grades as the merits of the individual animal or article fully justifies.

13 No person shall attempt to interfere with or influence the judges while discharging their duties. Any Exhibitor Who Publicly Expresses Disapproval in the Arena or on the Grounds of the Decision of the Judges or Who by an Act of Interference Shall Be Guilty of Conduct Unbecoming an Exhibitor, Shall Forfeit the Premium and Be Excluded from Further Competition.

14 Any problems or questions arising with any exhibit or with the showing, handling, health, or safety of any livestock exhibit will be presented to the grievance committee for final decision.

15 The Grievance Committee shall consist of representation from the Fair Board, 4-H Council, FFA, and the County Extension Office. A veterinarian may be called upon, if deemed necessary, prior to making a decision. The decision of the Grievance Committee will be final.

16 Blatant disregard for any exhibition rules will result in disqualification.

17 Money prizes will be paid only upon classifications listed in the premium catalogue and strict compliance with the rules. Premiums will be paid only upon the judges' signed records. Premiums will be paid at the entry office after 4:00 p.m. on Sunday. Any errors in premium money must be reported within one week.

18 Market animals to be released at 3:00 p.m. All livestock may be removed from the grounds after 4:00 p.m., and must be removed by 1 hour after the rodeo has concluded on Sunday

SUPERINTENDENTS

Each superintendent will have charge of the department assigned to him/her, subject to the order of the director in charge. Each superintendent is charged with caring for and receiving the judge's book of his department with the awards in each division and properly entered therein, as it is upon these records only that premiums can be paid.

Each book must be signed by the superintendent and judge immediately after completion of the awards for the day. The Horticulture Superintendent is responsible for watering the appropriate plants and flowers in that department. All superintendents, at the close of the Fair, should file with the Secretary a full and detailed statement of their work, with recommendations.

The superintendents of the various departments should be familiar with the rules, and each has absolute charge of his division during the Fair. If you have any questions about an exhibit, see the superintendent of that division, who may present any question or problem to the proper authorities.

Please note that all livestock will be evaluated on entrance to the fair. Any animals that do not pass the handling evaluation will be sent home.

DEPT A CATTLE

Prizes: Blue \$5.00, Red \$3.00, White \$2.00

DEPT. D BOOTHS

Prizes: Blue \$8.00, Red \$6.00, White \$4.00

The Fair Board will furnish space for booths. Judging will be on neatness, attractiveness, exhibits displayed, and the best exhibit in relation to the project. Booth exhibits may represent work carried on during the club year, or they may be exhibits on health, safety, or handicraft made at club meetings, or sponsorship of 4-H club activities. An entry blank must be made out for every booth exhibited by a Club so that it will be recorded in the Judge's Book before the time of judging. **Judging will be carried out on the Danish System.** In this way, every club will be awarded a prize if the exhibit is worthy.

Division 1

Class

1. Extension Homemakers Club Booth
2. 4-H Club Booth, FFA Booth, FCCLA Booth

DEPT. E- CHILDREN'S DIVISION

PLEASE STATE DATE OF BIRTH ON ENTRY FORM

16. Tomato juice
17. Any other fruit and berry, identify
18. Any other fruit and berry juice, identify
19. Best collection of 3 canned fruits and berries. At least 3 BLUE ribbons in department to qualify

Dept I4- Jellies

An excellent jelly should be a transparent, palatable mass that will quiver, not flow, when turned from a mold. It should be tender, cut easily with a spoon, and yet so firm that angles retain shape. The agreeable, typical fruit flavor is necessary.

Dept I5- Jam and Butter

Jams are made from one fruit. It has a soft consistency without distinct pieces of fruit and a semi-jelled texture that is easy to spread. Fruit butters should mound up when a small amount is dropped from a spoon, should not cut like jelly, nor should there be any free liquid.

Dept I6- Marmalade and Preserves and Conserves

Marmalades have thin slices or small pieces of fruit evenly suspended in the transparent jelly. Preserves are whole fruit or pieces of fruit cooked in heavy sugar syrup. The fruit should be as whole and well-shaped as possible. Conserves are jam-like products that contain a mixture of fruits, frequently including citrus fruit, raisins, or nuts. The consistency should be slightly jelled with little or no syrup.

Dept I7- Syrups

Syrups are a thick, sweet liquid made by dissolving sugar in boiling water, often used for preserving fruit.

Item exhibited must be in regulation pint or half pint jars, sealed with two-piece lids so they may be opened, and should not be covered with paraffin.

Jars may be opened for judging

Include Label on container

DEPT. K GRAIN

Prizes: Blue \$5.00, Red \$3.00, White \$2.00

Combined or threshed grain may be from last year's crop. Exhibitor must furnish their own container.

The purity and quality of a sample are the two points to remember when preparing samples of threshed grain for show. Purity is valued at about 35% and quality at 65%.

Durum, Wheat, and Rye - All samples should be free of dirt, weed seeds, chaff, and other grains. There should be no evidence of smut, ergot, or any other diseases in the sample. The sample should be pure as to variety and the class of grain. The grain in a wheat sample should be large, plump, and of a clear dark red color. Durum should be a clear amber color. It should not be bleached. Rye should be a tan color with a blue tinge. Samples should be free of "yellow bellies," green or immature kernels. The grain should have a hard, flinty texture. A deep, yet clear, dark red color is best for milling wheat. It should give a high test weight. The sample should be free from all harvest or storage damage, such as bin burning, cracked, or shriveled kernels

Oats and Barley - Practically the same points as for wheat will hold for oats and barley. In oats and barley, fresh, clean color is very important. Another important point is the plumpness of the grain, indicated by a high point value per bushel.

Oilseeds (Sunflower, Safflower, Flax) and Field Peas - All samples should be free of dirt, weed seeds, chaff, and other grains. There should be no evidence of disease or weather damage within the sample. The samples should be pure in variety. Safflower and Sunflower samples should exhibit plump, angular, wedge-shaped, or, in the latter, pointed seeds. Safflower seed should be white in color. Color is of particular significance in bird seed versus oilseed varieties. Sunflower seeds should be black or dark gray with striations. Flaxseed should be very shiny, flat, and brown in color. Field peas will vary in color and shape as per variety, but should be uniform within the sample. Peas should be large (plump), very hard in texture, and free from cracking. The above samples should be free from weather, harvest, auguring, or storage damage.

Small Seeds - All samples should be free of dirt, weed seeds, chaff, and other crop seeds. There should be no evidence of smut, ergot, or other diseases in the sample. The sample should be pure as to variety. Seeds within the sample should be free from all harvest or storage damage.

Dept K1- Threshed Grain

1 gallon is necessary for an exhibit; list the variety

Division 1- Adult

Division 2- Junior (7-11) **All Junior Divisions will be judged Danish.**

Dept K3- Sheaf Forage

Division 1- Adult

Division 2- Junior (7-11) **All Junior Divisions will be judged Danish.**

Division 3- 65 and over

Division 4- (ages 12-18) Judged Danish

Sheaf Forage Crops - Select the leafiest types to be found in the field, the best individual specimens obtainable, and cut close to the ground. Place in loose bundles not less than 5" in diameter or more than 7" in diameter, and wrap loosely in newspaper or cheesecloth. Then hang head down, in a dark place to cure.

Do not strip a single leaf or branch from the stem, as forage should retain its color and leaves. In making up show bundles, select those individual stems that have retained the most and best leaves with their color. Make bundles about 5 inches in diameter and tie securely in three places.

Class

1. Alfalfa
2. Crested wheatgrass
3. Field peas
4. Green Needle grass
5. Intermediate wheatgrass
6. Millet
7. Pubescent wheatgrass
8. Russian wild rye
9. Sainfoin
10. Smooth brome grass

11. Western wheatgrass

12. Any other Sheaf Forage, Identify

Dept. K4- Sheaf Grain

Division 1- Adult

Division 2- Junior (7-11) **All Junior Divisions will be judged Danish.**

Division 3- 65 and over

Division 4 (ages 12-18) Judged Danish

Select the best individual specimens obtainable, cut close to the ground. Consider the size of the stems, heads, pods, etc.: color (true to variety, un-weathered); condition (no insect or weather damage or disease). Place in loose bundles and hang, heads down, to dry/cure. After the samples are cured, strip all the leaves from the stems and bind into sheaths (about 5 inches in diameter). There are several methods of binding sheaths. Emphasis will be on the quality of the grain within the sheaths versus binding styles. **NOTE: Do not strip Field peas of leaves.** Start binding Safflower sheaths directly below where the main stem begins to branch out to the heads. The lower leaves on Safflower stems should be stripped. The leaves on the flowering branches above the main stem can be left. A Sunflower and Corn sheath should consist of four (4) stalks cut at ground level and bound. **List variety on the entry blank**

INFORMATION FOR THE PREPARATION OF HORTICULTURE EXHIBITS

1. All exhibits must be grown by the exhibitor.
2. Exhibitor may not enter more than one item per Class.
3. Exhibits that do not contain the required number of vegetables will not be considered for awards.
4. Exhibits will be judged on uniformity, maturity, variety, characteristics, quality, and freedom from disease.

The following information has been compiled, which we believe will aid exhibitors in preparing vegetables for exhibits.

BEETS - Color and tenderness are desirable qualities in beets. Over-size should be avoided. As a rule, beets from 2 to 2 ½ inches in diameter are best. Beets showing white streaks should be avoided. They should be smooth, without side roots or cracks. If topped, be sure that an inch of leaf stalk is left on.

BEANS - Green Snap Beans should be under, rather than over-mature. Long, straight specimens of the same length and color should be selected. Avoid stringiness. The pods should be free from rust spots, dirt, and insect blemishes. The end of the bean should not be broken off when picking it. The seeds in the pod should appear to be one-fourth to one-half grown.

BROCCOLI - Cut the stem before the first whorl of leaves. The length of the stem should not be over 5 inches. Heads should be compact, dark green (avoid yellowing), and free from decay, worms, or damage caused by wilting or injury.

BRUSSELS SPROUTS - Firmness and medium size are important. Avoid all soft and leafy specimens. Color should be uniform. Do not wash. Clean off and remove dead or diseased spots.

CABBAGE - Type is very important. Leaves should not be peeled too closely. The heads should be firm, heavy in proportion size, not withered or soft, free from damage, freezing, disease or injury and the midribs should not indicate coarseness. Stems should be cut off.

CARROTS - Quality is best in medium sized specimen. Color is very important. A deep orange carrot shows good advantage. Greenish or

pale yellow specimens, irregular and coarse, should be avoided.

Carrots should appear fresh, crisp, firm, smooth, clean, and free from sunburn, side roots, cracks, or other damage.

PEPPERS – Peppers deep in color, fresh, firm, symmetrical, and true to variety. Sweet peppers should show no red color. Pimentos should be red. All peppers should be free from sun-scald or injury caused by insects and diseases.

PUMPKIN for PIE: - Uniform within variety, type, size, and color. (Check with seed catalog for description of your variety). Free from insect and mechanical injury. Mature as shown by the hardness of the shell. Stems should be attached. Do not wash.

RUTABAGAS - Medium to large, uniform throughout. Color: bright and clean, fresh-grained. Free from damage caused by freezing, pithiness, growth cracks, insects, or mechanical injury.

SQUASH (summer) - Stems must be left on. Pick when small, before maturity, when the shell is extremely soft, uniform in size, shape, and color. Be sure samples are free from any damage or blemishes. They may be washed.

SQUASH (winter) - Select mature specimens with hardened shells. Do not wash. Leave the stem attached. Uniform in size and color

SWEET CORN - Harvest ears when filled out to the tip, in the tender, juicy stage (before reaching tough state). One-half inch may be clipped from the tip of the ear. Leave husks on.

TOMATOES - Use only perfect-shaped specimens true to type. Smooth from cracks, sun-scald, or any blemishes. Should be well colored (no green streaks), ripe, and must be solid. Remove stem. Display with blossom end up. Leave stems on green tomatoes.

TURNIPS - Medium sizes are generally desired as having higher quality. Large sizes may be bitter, corky, or pithy. All samples should look alike, be clean and bright in color, but not washed. Remove the tops 1 inch above the crown.

WATERMELON - Select large, well-formed specimens of the variety, mature, but not over-ripe. Free from blemishes or injury such as sunburn, insects, or diseases. Wipe off, but do not wash. Leave a short stem.

RADISHES - Crisp and tender, medium to large, uniform shape and color. Free from injury caused by disease, insects, growth cracks, or damage.

LETTUCE - Should be crisp, fresh, free from sun-scald and any rots or mold. Heads should be solid and free-textured. The loose wrap should be removed just before showing.

MUSKMELON and CANTALOUPE - Must be fully ripe when exhibited and free of soft spots or discoloration. Pick a full slip. If several days elapse between picking date and exhibit, it may be picked on a half-slip and permitted to ripen.

CAULIFLOWER - The heads should be pure white, solid, uniform, smooth, and close-flowered. The heads should not show leaves appearing through the head. There should be no over-mature or ripe specimens. The side leaves should be trimmed about 2 inches above the center of the head. Cut stems, allowing 4 to 6 leaves to remain. Leaves should be free from damage and discoloration. Avoid exposing head to strong light.

CUCUMBERS for PICKLES - Straight, firm, crisp, and fresh. Color should be green and white, not yellow. Avoid mature seed. A small seed cavity is desirable. Cucumbers may be washed.

KOHLRABI - Remove roots just below the ball. Trim and leave 4 to 6 upper leaves. Kohlrabi should not be hard, woody, or pithy. It should be from 3 to 4 inches in diameter. The skin should be easily penetrated by a thumbnail. Clean, but do not wash.

ONIONS - Must be thoroughly ripened with necks dry. Uniformity and maturity are of particular importance. Should be clean, smooth, and not peeled to be slick. The loose wrapper skins should not be removed. Onions must be solid. There must be no splits or doubles. The neck should be small. Onions should be free from damage caused by dirt, moisture, sunburn, cuts, disease, insects, or other injury.

PARSNIPS - Should be small in diameter and of great length, free from rust and side roots. Parsnips should be light creamy in color, not corky. Cut the top 1 inch from the crown.

PEAS - Must be green, fresh, and well-filled pods. Avoid large empty pods, hard berries, or discoloration.

Dept. L Horticulture

Prizes: Blue \$5.00, Red \$3.00, White \$2.00

Consult information for the Preparation of Horticulture Exhibits. **NOTE: Please display all horticulture exhibits on meat trays provided by the Carter County Fair Board.** The outstanding points to be considered in selecting vegetable exhibits are quality and condition. The judging of a vegetable exhibit is generally based on the readiness of the product for immediate use. The quality of the product is determined by an actual test. Condition and quality also include the points of freedom from disease, insect work, mechanical injury, and defects. Vegetable exhibits should comprise specimens that are practically perfect from a physical standpoint. Medium sizes are generally preferred over the very large sizes. Uniformity, a point which applies to exhibits that include more than one specimen, is particularly important.
